

# Sameer Shah

Karachi, Pakistan | +923408732938 | [sameershahh.05@gmail.com](mailto:sameershahh.05@gmail.com) | [Portfolio](#)

## SUMMARY

Developer specializing in Python, Deep Learning, and modern web technologies. I build intelligent, data-powered applications that turn ideas into production-ready solutions.

## PROJECTS

### Facial Expression Recognition (FER-2013) - [GitHub](#)

(*PyTorch, CNN, Flask*)

- Built a CNN-based classifier achieving **72% test accuracy** on the FER-2013 dataset.
- Preprocessed 35k+ facial images with augmentation to improve generalization.
- Deployed via Flask with ~200ms real-time prediction latency.

### Amazon Price Tracker - [GitHub](#)

(*Python, NextJS, Selenium, PostgreSQL, FastAPI*)

- Built a **full-stack Amazon Price Tracker**, integrating automation and scraping.
- Developed a **FastAPI backend** using **Selenium (headless Chrome)** to extract product data and store results in PostgreSQL dynamically.
- Designed a **Next.js frontend** for displaying tracked products, price history, and alerts in an intuitive dashboard.

### YouTube Gesture Controller - [GitHub](#)

(*Python, OpenCV, MediaPipe, PyAutoGUI*)

- Created a real-time hand gesture recognition system for controlling YouTube playback.
- Integrated MediaPipe's Hand Landmark detection with PyAutoGUI for smooth interaction.

### RAG Chatbot - [GitHub](#)

(*Python, FAISS, Transformers, LangChain*)

- Developed a **Retrieval-Augmented Generation (RAG)** chatbot capable of providing context-aware responses from custom text data.
- Implemented FAISS-based vector retrieval and transformer-based response generation.
- Demonstrated strong understanding of **vector databases**, **embeddings**, and **NLP pipelines** through this class-level project.

## SKILLS

- **Programming:** Python, JavaScript (basic)
- **ML/DL:** scikit-learn, PyTorch, NumPy, Pandas, Matplotlib
- **Web/Data:** Django, Next.js (basic), FastAPI, BeautifulSoup, Selenium, Requests
- **MLOps/Cloud:** AWS (EC2, S3), Vercel, Streamlit
- **Databases:** MySQL
- **Frontend:** HTML, CSS, Bootstrap

## OTHER EXPERIENCE

### Spectronix

*Sales Executive (Discord, Twitch)*

Karachi, Pakistan

August 2024 – September 2024

- Built and maintained strong relationships with gaming streamers in the graphic design niche.
- Successfully sold custom logos and emotes to enhance their channel branding.

### ProAssistant

*Virtual Assistant Private Label - (Hybrid)*

Karachi, Pakistan

February 2023 – December 2023

- I've guided the identification and sourcing of high-demand, low-competition products, resulting in substantial sales growth and market share expansion.
- Conducted a thorough analysis of products and systematically segmented them based on client demand.

## EDUCATION

### Iqra University

*Bachelor of Computer Science (BSCS)*

Karachi, Pakistan

October 2022 - Present

## CERTIFICATION

### ACM IU Student Center

Participated in the Programming Competition

Karachi, Pakistan
